Forecast for Sunday 17 Apr 2022

Weather: Apart from the odd mist or fog patch in valleys, a fine and dry start to Sunday with occasional clear spells. Staying bright through the morning with some hazy sunshine, before cloud thickens from the west during the afternoon. Rain then arriving into the evening before clearing later into the night.

Chance of cloud-free hill tops above 600m: 90% for much of the day, falling to 40% for the evening.

Low cloud and visibility: Very good visibility during the morning and much of the afternoon, with cloud above the summits. Lower cloud spreading east from mid-afternoon, with tops above 600m obscured at times, and a chance of the odd patch of cloud down to 400m with any rain. Views becoming limited to moderate distances during any rain.

Forecast for Monday 18 Apr 2022

Weather: Early cloud clearing through the first half of the morning to leave clear intervals. These turning to sunny spells for the afternoon, with isolated showers also possible. Staying fine and largely dry into the evening and night.

Maximum wind: 20mph southwesterly winds on the summits to begin, easing to 10mph by the afternoon.

Chance of cloud-free hill tops above 600m: 40% to begin, rising to 90% by late morning.

Low cloud and visibility: Cloud at around 500-600m clearing through the early hours, but with some remaining on western slopes for a bit longer, bringing fog in places. Good visibility from late morning onwards with cloud remaining largely above the summits – the low risk of some cloud to 800m in any isolated showers, with visibility also reducing in accompanying rain.

Temperature: **Valleys:** Plus 7 Celsius, rising to plus 13 Celsius.
At 600m: Plus 2 Celsius, rising to plus 5 Celsius.
Freezing level: Just above the summits.
